ABSTRACT

Man differs from animals in the use of written symbols - the alphabets. Learning alphabets is the first step in the education of man. Language is the tool to expression of human personality in words both written and spoken. In those days, one of the vital developments of Independent India has been the reorganization of states on the basis of language. Most of the Indian languages have rich traditions and literature. Every human being has one mother tongue and then an additional language to enhance and estimate themselves. The second language of English learning becomes more pertinent especially in growing Countries like India. For children who have studied in elementary school, English is the basement of their education. Due to disabilities in learning and acquisition students are not able to improve their second language skill. This paper analyses the how Library can support students to improve English language acquisition. Library can provide vocabulary books, translated books, reference materials, reading materials, audio and video materials, online resources and to motivate writing habit. Moreover, they can help to students build background knowledge.

KEY WORDS:

Library, Information Centre, English, Second language, Books

INTRODUCTION

Man differs from animals in the use of written symbols - the alphabets. Learning alphabets is the first step in the education of man. Language is the tool to expression of human personality in words both written and spoken. A language attracts people because of the wealth of literature and knowledge enshrined in it. One of the momentous developments of Independent India has been the reorganization of states on the basis of language. Most of the Indian language have rich traditions and literature, in some cases going back to remote antiquity. Language encompasses a particular culture and a view of life of the people speaking that language. Desire to preserve and promote one's mother

tongue is natural. One reason for the world wide spread of English has been the growth and proliferation of the English trade in the 18th and 19th century. English language is our window to see the world. It makes available to us the best that is though and done in the world. Human beings are making efforts to improve human destiny. We can learn from others' experience. In this land of innumerable regional languages in different States, English serves as a link-language in the country.

Library is an important resources for English Language learner; they provide vocabulary books, translated books, reference materials, reading materials, audio and video materials, online resources and to motivate writing habit. Moreover, they can help to students build background knowledge. Electronic Resources are well support to sharing and downloading the information quickly. Moreover, library also provide PDF books, Video files and pictures through social media like facebook, twitter, WhatsApp, google+ and etc.,

MOTHER TONGUE AND SECOND LANGUAGE:

Children acquire their mother tongue through interaction with their parents and the environment that surrounds them. As experts suggest there is an innate capacity in every human being to acquire language. Globalization of world economy has to pose certain challenges to our institutions of higher learning. According to linguists, there is an important distinction between language acquisition and learning. While elementary education is essential in promoting awareness of language learning; A student who has memorized the rules of the language may be above to succeed on a standardize test of English language.

English language is one tool to establish out view point. Rather, we can make use of English to promote out world view throughout the globe. "Swami Vivekananda established the greatness of Indian view of religion at the world conference of religions in Chicago in 1891. He addressed the gathering in impressive English". English has thus become an effective means of promoting Indian view of life and of bolstering out cultural identity in the world.

IMPORTANCE OF ENGLISH

Today English remains a major medium of all over the departments like Education, Business, Political, Science and Technology. The abolition of English will adversely affect the office work, most of them use computer and internet, in this connection English is occupying in all software to communicate to others and link to others.

In academic side, they play a major role, most of the text books and non- book materials also available in English Language only. There are large number of books written in English language. Education system is fully furnished by English Language today.

Second Language known as Communication language in this era; all over world adopted to this language, because is easy to learn and write compare with other foreign languages. The communication of India with other countries takes place in English language is a first place. It is essential to be in constant intercourse with other countries.

CAUSES OF LEARNING DISABILITIES:

- 1.Lack of sufficient exposure to both spoken and written English
- 2.Difficult to learn new languages

"Emerging Trends in English Language & Literature"

8. Illiteracy of the parents

Information centre play a vital role in English language learning and acquisition. Academic Library is an important resources for English Language learner. It may be the first place of many students and their families get experience using a lending library. They play a critical role in supporting language development. Today all the academic Institutions should have a Library in their campus. Library nowadays change name as Information centre, because the user (students, faculty) want to more information out of the books. So, library must to provide the information for the user in right time. The father of Library Science S.R. Ranganathan states in their law of library science says to give the right information for the right user. In the language world, English is Universal language; its spread all over world for Education, Research, Medicine, Political and etc., Most of the students struggle in second language learning and speaking, because they don't have a knowledge about the vocabulary, grammar and pronunciation. Library provides Vocabulary books, Translated books, Reference materials, Reading materials, Audio and Videomaterials, online resources and to motivate writing habit, moreover, help to student build background knowledge and also competitions, play games (quiz, puzzle), drawings and etc. Digital tools also used in Language learning such as Computer, Internet, Website, Blog, Whatsapp,, Facebook, twitter and etc., There are two key items students need in order to improve their English are time and practice.

The following ways to improve students with Learning disabilities in English Language Acquisition:

- a. Vocabulary books, Translated books, Grammar Books to keep in-front of shelves
- b. To purchasing more curriculum resources
- c. To display colourful pictures related English language learning
- d. To display Slideshow and presentation
- e. Share culturally meaningful stories, make story time Interactive

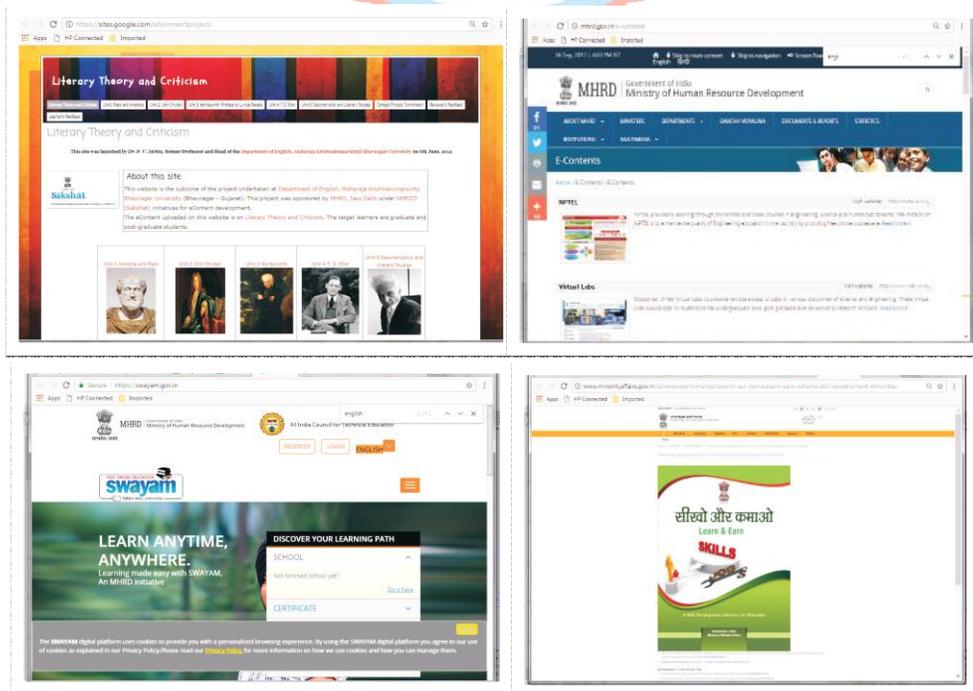

"Emerging Trends in English Language & Literature"

ENGLISH EDUCATION IN INDIA

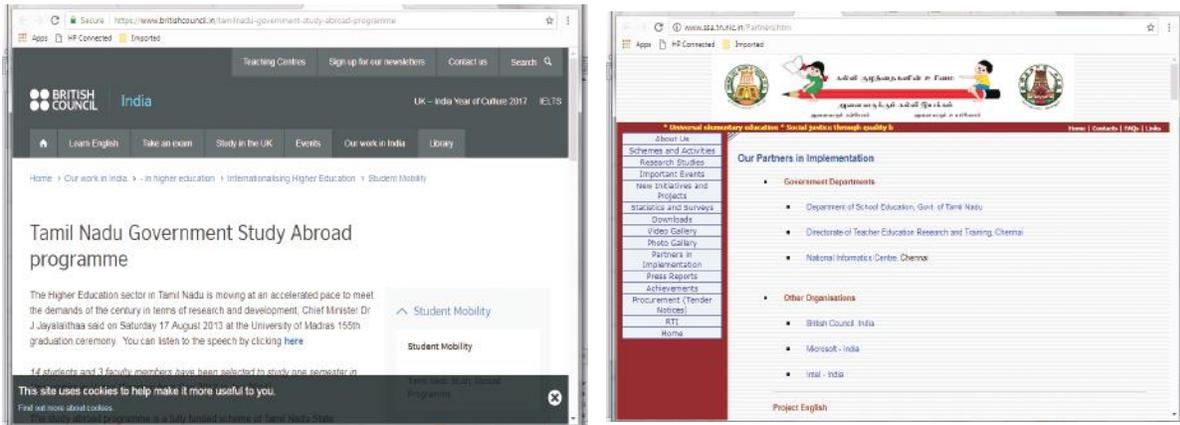

In India English as a second language has a long history that dates back to the 19th century when English education was introduced in India for strategic purposes. India, people of different states have their own language, the second Language has come us as a connecting link among various states of India. English language has recognized globalized language among out of five languages. English has evolved be a language of science and technology. Majority of all important books for higher studies are written in English. The Indians must not keep their eyes closed in this adventurous period of globalization. The common practice all over the world in the modern age is to learn English language to facilitate easy understanding political, social, cultural and religious issues because this language is easier than French, German, Greek and Sanskrit. It is with the help of this language that we are gaining knowledge of modern science and technology and are keeping ourselves in touch with the most progressive ideas and current thoughts. Indian government motivate to student via e-content and online learning course related in the second language learning.
